Optimus Popularis keyboard

Optimus Popularis is a compact keyboard with a big base screen that enables each key to be programmed to display anything from letters, to numerals, symbols, animation, or video.

Optimus Popularis will work with any keyboard layout, language, or symbols: Cyrillic, Ancient Greek, Georgian, Arabian, music notes, numerals, codes, math functions, images, special symbols, and so on to infinity. The upper portion of the keyboard is reserved to display custom range of the most important information. The Fn key (bottom left) switches the functions of the right section of the keyboard, bringing up a calculator or page navigation when needed.

Keyboard dimensions

width	293 mm (11.5″)
depth	186 mm (7.3″)
height	19 mm (0.7″)
key	17.5×17.5 mm (0.7″×0.7″)

Each of the 78 displays

technology	TFT
visible area	12.5×12.5 mm (0.5″×0.5″)
resolution	64×64 pixels
frame rate	min 10 frames per second
colors	262K
viewing angle	160°

SKU

V001497

System requirements

PC with installed OS Windows XP, Vista, or 7; Mac OS X 10.5.1 or higher

USB 1.1 (or better 2.0)

Software

Optimus Configurator software enables users to program each button to reproduce a sequence of symbols and edit images separately for each layout

For Optimus Configurator, downloads, and FAQ go to www.optimus.artlebedev.com

Optimus Maximus keyboard

Optimus Maximus' customizable layout allows convenient use of any language—Cyrillic languages, Ancient Greek, Georgian, Arabic, Quenya, Hiragana, etc.—as well as any other character sets: numerals, special symbols, HTML codes, math functions, music notes, and so on to infinity.

Any key (or to be exact, a unit consisting of a clear moving cap, a microchip, and a display) can be easily removed by hand to be cleaned or replaced.

Optimus Configurator software enables users to program each button to reproduce a sequence of symbols and edit images separately for each layout.

Mus3 computer mouse

Mus3 cordless optical mouse not only controls the cursor on screen, but cleverly looks like one too. The new Mus model has a scroll wheel.

Two color options: linen and anthracite

The scroll wheel also performs the right click action. A built-in power indicator in the handle lights up when the batteries are low or need replacing.

Despite its unconventional shape, Mus3 fits well into your hand and feels comfortable.

SKU

linen	V001429
anthracite	V001430

Functionality

- Compatible with Windows and Mac OS X
- USB-connectable
- Signal range of at least 2 meters (6 feet)
- Frame speed up to 76 centimeters (30 inches) per second
- Optical resolution of 688 dots per centimeter (1750 per inch)
- Two AA batteries (included)
- Auto power saving mode when idle

Verbarius electronic clock

SKU

V002354

Specifications

Requires a 110/220 V power supply source

Provided with a backup battery to supply power in the event of failure

Power supply cord, USB connector, CR2032 battery, and 512 MB SD card included

Dimensions (W×H×D): 200×70×42 mm (7.9″×2.8″×1.7″)

Weight: 1 kg (2.2 lb.)

Package

Made in Taiwan

Verbarius is the first clock in the world that tells time the way people do. It has five preloaded languages: English, German, Spanish, French, and Russian. You can easily upload any additional language you like—from Latin to Eskimoan—using the USB port.

The clock spells out time differently every minute. It's either forty-five minutes past four, or fifteen minutes to five, or four forty-five, or a quarter to five.
